# Safe Harbor Statements

## Under the Private Securities Litigation Reform Act of 1995

This presentation contains, in addition to historical information, “forward-looking statements” within the meaning of the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements under “1Q 2016 Guidance”, and “2016 Capex Guidance” are based on SMIC’s current assumptions, expectations and projections about future events. SMIC uses words like “believe,” “plan,” “anticipate,” “intend,” “estimate,” “expect,” “project,” “target” and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these words. These forward-looking statements involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC’s actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with the cyclical nature of the semiconductor industry, changes in demand for our products, competition in our markets, our reliance on a small number of customers, orders or judgments from pending litigation, intensive intellectual property lawsuits in semiconductor industry, and financial stability in end markets, general economic conditions and fluctuations in currency exchange rates.

Investors should consider the information contained in SMIC’s filings with the U.S. Securities and Exchange Commission (“SEC”), including its annual report on 20-F filed with the SEC on April 28, 2015, especially the consolidated financial statements, and such other documents that SMIC may file with the SEC or The Hong Kong Stock Exchange Limited (“SEHK”) from time to time, including current reports on Form 6-K. Other unknown or unpredictable factors also could have material adverse effects on SMIC’s future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this presentation may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated, or if no date is stated, as of the date of this presentation. Except as may be required by law, SMIC undertakes no obligation and does not intend to update any forward-looking statement, whether as a result of new information, future events or otherwise.

### **About Non-Generally Accepted Accounting Principles (“Non-GAAP”) Financial Measures**

To supplement SMIC’s consolidated financial results presented in accordance with IFRS, SMIC uses in this presentation non-GAAP revenue, and non-GAAP operating expenses which consist of total operating expenses as adjusted to exclude the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. It also includes 1Q 2016 guidance for non-GAAP operating expenses. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS.

SMIC believes that use of these non-GAAP financial measures facilitates investors’ and management’s comparisons to SMIC’s historical performance. The Group’s management regularly uses these non-GAAP financial measures to understand, manage and evaluate the Group’s business and make financial and operational decisions.

- **Revenue** increased by 7.1 % QoQ from \$569.9 million in 3Q15 to \$610.1 million in 4Q15 mainly due to an increase of wafer shipments in 4Q15.
- **Gross margin** was 28.5% in 4Q15, as compared to 32.0% in 3Q15. The decline in gross margin was primarily due to the ramp-up costs associated with the new Beijing and Shenzhen fabs.
- **R&D expenses** increased by \$3.7 million QoQ to \$66.1 million in 4Q15, compared to \$62.4 million in 3Q15. Excluding the funding of R&D contracts from the government, R&D expenses increased by \$3.2 million QoQ to \$75.2 million in 4Q15. The change was mainly due to higher number of R&D activities in 4Q15. Funding of R&D contracts from the government was \$9.1 million in 4Q15, compared to \$9.6 million in 3Q15.
- **General and administrative expenses** increased to \$67.3 million in 4Q15, up 30.9% QoQ from \$51.4 million in 3Q15, mainly due to 1) an increase of accrued employee bonus in 4Q15, 2) an increase of government tax surcharges in 4Q15 and 3) the start-up cost relating to our majority-owned fab project for bumping services in Jiangyin.
